- We accept cash or check.
- If you only bring electronics, please make your check payable to RMG.
- If you bring household hazardous waste in addition to electronics you will have to pay a \$10 user fee/vehicle plus the price of your electronics. Please make your electronics check payable to RMG. Please make your \$10 user fee check payable to NRSWMD.

## Why recycle electronics?

- Unwanted electronics take up a significant amount of space in landfills and pose serious environmental risks from the hazardous materials they contain, including lead and mercury.
- Discarded electronics contain valuable resources, such as precious metals, engineered plastics, and glass, which require substantial energy to manufacture. When electronics are disposed of instead of recycled, these resources cannot be recovered and additional pollution is generated to manufacture new products.
- It's the Law. The disposal of video display devices in solid waste landfills or incinerators is prohibited in NH under RSA 149-M:4.
