

Hazardous Waste

Household Hazardous waste in the trash, on the ground, down the sink, or into a storm drain poses a threat to water quality and may kill fish and wildlife and injure humans and animals.

Nashua Regional Planning Commission sponsors hazardous waste collections 5 times per year. They will collect:

Antifreeze	Oil Paint
Mercury	Paint Thinner
Drain Cleaner	Pesticides
Driveway Sealer	Varnishes
Fertilizer	Mixed Gas
Herbicides	Pool Chemicals
Lead Paint	Oven cleaner

See www.nrpc.org or call 424.2240

WHAT NOT TO BRING

Latex Paint	Less than 1/4 full containers can be dried out in the can. For larger quantities: use a sturdy cardboard box lined with a plastic trash bag. Absorbent material like kitty litter or sawdust can be added. Let air dry. When crispy dry, dispose of at transfer station
Smoke Detectors or Fire Extinguishers	Return to manufacturer
Explosives, Fireworks, Ammunition	Call local fire department or police for proper disposal
Used Oil or Auto Batteries	Landfill/transfer station, auto parts stores
Propane Tanks	Take to landfill/transfer station
Asbestos	Contact private contractor
Creosote	Contact private contractor

For your information:

Milford NH has a mandatory recycling program that reduces our taxes for waste disposal and helps the environment.

- Dump permits may be obtained at transfer station office.
- Household trash not specifically listed as recyclable will be transferred to an incinerator for disposal.
- Leaves and grass clippings should be brought to our composting area, located on the hill. Empty out all bags!
- Bring your own reusable bags shopping to reduce the waste of single use bags.
- Consider backyard composting to reduce the waste you transport to the Transfer Station.
