Nick Darchik – trail steward for Rotch TF Buddy Dougherty – advocate for the Rail Trail and a member of the Brookline CC; although not speaking on its behalf.

	Item	Discussion	Who Will Do What
1.	Meeting Minutes approval	The May 14 Meeting minutes were unanimously approved by a motion from Audrey seconded	
		by John	
2.	4 th Saturday hike	June 27, 2020 hike on schedule July 25, 2020 hike – no location determined	 Chris to confirm this hike with John Shannon, Town Administrator. Audrey will pick a location and notify Anita and Chris
3.	Brookstone Conservation Easement	Brookstone management committed to a Conservation Easement, held by the Town of Milford, to permanently protect the 6 +/- acre open space portion of their property (Map. Audrey presented a motion to spend up to \$2500 for the land fund to survey the area included in the Conservation Easement. Reserved rights regarding trails and access to abutting properties are to be coordinated with the landowner and included in the deed. This motion was seconded by Chris and was unanimously approved by the members.	Chris to notify Lincoln Daley, Community Development Director

Milford Conservation Commission Meeting Minutes June 11, 2020 7:00pm Zoom Meeting Room

 Broken beaver flow device – The MCC decided that contracting with Skip Lisle, of Beaver Deceivers International to repair the device was the best use of resources Hitchiner TF Abutting property at the top of the hill had a large brush fire. Andy, with permission from the landowner cleared the fire pit and removed a large pile of ash and broken glass. Regeneration in the burn area is already visible. Andy painted over the graffiti on the tables in the Pavilion. NEFF (New England Forestry Foundation), the holder of the CE on Hitchiner and Mile Slip TFs did their first annual monitoring visit to Hitchiner and Mile Slip The members discussed placing cameras at the pavilion. There doesn't seem to be a real need to capture the activity that is happening. There is a concern of privacy for persons who are using the pavilion for a family picnic or a lunch refuge. Rotch TF Nick Darchik, one of the trail stewards for the Rotch TF, would like to breach the lower dam is retaining sufficient water that the trail from Melendy Road is under water. There is some indication that the water level in the lower ponded area may be higher elevation than that in the main pond. Girl Scout Bronze Star project A girl scout would like to build and install a bench at Tucker Brook. The members like the idea. 	4. Heron Pond	• A caller wants to reduce the amount of lily pads which cover nearly 90% of the heron pond, near the elementary school. After discussion of input from NH Fish and Game staff, it was decided that the lily pads will remain.	Chris will inform the caller of the MCC's decision.
Deceivers International to repair the device was the best use of resources Chris will contact Skip Lisle. 5. Hitchiner TF Abutting property at the top of the hill had a large brush fire. Andy, with permission from the landowner cleared the fire pit and removed a large pile of ash and broken glass. Regeneration in the burn area is already visible. Andy painted over the graffit on the tables in the Pavilion. Milford Conservation Commission Meeting Minutes June 11, 2020 7:00pm Zoom Meeting Room

	Armory Rd /Rail Trail crossing – on hold until completion of the Melendy Crossing is completed	
	Melendy Rd tunnel grant.	
	• Trails Bureau is continuing their process to release the funding. Not expected before June	
	24.	
	 Rick Riendeau (DPW) is working with the sole contractor who submitted a bid to find some cost savings 	
	• We received a higher than anticipated estimate to install the culvert; there is a difference of	
	approximately \$40,000 between the funds that the MCC has to spend and the cost for the	
	project. Savings can be found in a single-day installation rather than the three days	
	budgeted. Another saving could be found in reducing the culvert size to an 8x8' box culvert.	
	Buddy Dougherty, an experienced trail builder and a member of the Brookline Conservation	
	Commission, suggested that we could not construct the drain that the plan calls for under	
	the box culvert. This would save considerable money and could cover the cost difference	
	between an 8x8 and a 9x9 box culvert. The members would like to check with Chad	
	Brannon, of Fieldstone Land Consultants, who engineered the plan to install the box culvert.	
	The members need a professional engineer's opinion concerning the need for this drain.	
	Buddy offered to meet with the MCC members at the Melendy crossing.	
	Open subdivisions – place holders to check for changes	
	Falcon Ridge – Monumentation of lots. Some of the lots have been monumented	
	Spaulding – Monumentation and easement of the open space	
12. Interdepartmental Review	M54L2-1 and 2-2 Ciardelli lot line adjustment - no comment	Chris will send IDR comments to the
		Planning Staff.
	M14 L8 Marmon Utility (Hendrix) infringement into the open space to construct a concrete pad	
	for outdoor storage. No comment
