STAFF MEMORANDUM

Date: February 6, 2023
To: Planning Board
From: Lincoln Daley, Community Development Director
Subject: Milford Downtown Pedestrian and Vehicular Improvements
Project - #42470 (X-A0004(864) Town of Milford

The purpose of this work session item is to update the Board regarding the status of the Milford Downtown Pedestrian and Vehicular Improvements project and present the conceptual design alternatives for both the downtown Oval and along Nashua Street (between Tonella Road and Clinton Street). Said design alternatives were presented to the Board of Selectmen earlier this year for initial input/comments. The Planning Boards expressed a strong desire to be involved in the design stage for both project areas. This represents the first opportunity for members to ask questions and provide needed guidance and as a precursor to the required stakeholder meeting to be held on February 15, 2023.

Attached please find the copies of the conceptual design for both project areas. Greg Bakos from Vanasse Hangen Brustlin, Inc. (Town engineering consultant and project manager) will be in attendance to present and respond to questions.
