Hello Mr Palance!

Could you please share this with the Heritage Commission ?

Thank you!

Subject: LOI Approval & Invitation to Submit Full Proposal
To: Katherine.Kokko@gmail.com

Dear Katherine,

Thank you for letting us know of your intent to seek funding from LCHIP. I am pleased to invite the Town of Milford to submit a full grant proposal for the Laurel/Abbott Schoolhouse Exterior project, as outlined in your submission.

A few observations, requests, and questions:

- When preparing your full proposal, please provide the complete Individual Inventory Form to complement the Determination of Eligibility submitted with your LOI. If you do not currently have the complete Individual Inventory Form, you may request it from the NH Division of Historical Resources.
- We understand that a Qualified Preservation Plan is currently being drafted as a result of a grant from the NH Preservation Alliance (supported by LCHIP), which I read as a member of the NHPA planning grants committee. In it, there are some other high-priority tasks -- storm windows and roofing -- that were not part of the proposed LCHIP scope of work in your LOI. Additionally, there are some medium-priority tasks -- exterior stairs handrail and attic ventilation. If your projected fundraising and timetable would support it, you may consider including these items in the LCHIP scope of work.

Please be advised that an invitation to submit a full proposal does not imply a guarantee of funding, and additional project details that emerge during the application process may preclude the project from consideration.

Please log on to LCHIP's [online grant portal](#) to access the full application. The full application will be accessible on your dashboard; click the blue Edit Application link on the right.

Sincerely,
George Born
