

Seasonal Engineering Intern

Town of Milford Department of Public Works

An excellent opportunity for an undergrad to gain some great field experience!

The Milford, N.H. Department of Public Works is seeking a part-time intern with a background in **GIS or Civil Engineering** to work 24 hours per week for a period of up to 10 weeks (between June to August 2024) to assist the Town with a wide variety of data collection and engineering projects. Assignments may include: assisting with MS4 stormwater compliance, GPS locating of structures for incorporation into the Town's GIS Map, storm drain outfall identification and monitoring, and assisting in data entry. Applicants must have a valid driver's license. Experience with Microsoft Word, Excel, and CAD or GIS software is desirable but not required. Applicants must be a college student. Starting rate \$15.00 per hour.

To Apply

Please provide a cover letter, resume, 2 written references and a completed town application

- Download Application at <https://www.milford.nh.gov/human-resources/pages/job-opportunities>
